

# ActivePython

The Industry-Standard Python Distribution

**ActivePython®** is ActiveState's free, ready-to-install distribution of standard Python, for Windows, Linux, Mac OS X, Solaris, AIX, and HP-UX.

ActivePython contains core Python, popular extensions, comprehensive documentation and more. The Windows distribution ships with a build of the latest Python for Windows Extensions (PyWin32).

#### Current Releases

- ▶ ActivePython 3.1
- ▶ ActivePython 2.6
- ▶ ActivePython 2.5

## FEATURES

### What's Included

#### Python

- ▶ Fully binary-compatible Python build

#### Python Modules

- ▶ Commonly used external modules, including expat for XML processing, zlib and bzip2 for data compression, bsddb Database Library, and Tkinter (using Tcl/Tk 8.5)

#### Installers

- ▶ Simple setup for all platforms

#### Documentation

- ▶ Complete, HTML & CHM format.

### Python for Windows Extensions

#### win32api

- ▶ Bindings to much of the Windows API, including the Windows registry, event log, and more

#### PythonCOM

- ▶ Framework for writing and using COM components and servers in Python

“ActivePython is the solution. Python has long had the Py2Exe module available, and ActivePython comes with a set of nice tools to help you develop, test, and deploy your Python project, be it as a script, zip, or .exe file.”

—Nate Dickson  
Coals Newcastle

### ActivePython Enterprise

**Focus on core competencies and enjoy peace of mind with on-demand support.**

ActivePython Enterprise is a comprehensive software, support and maintenance package for organizations of all sizes that depend on Python. Safeguard your company's applications with guaranteed, quality-assured ActivePython binaries and mitigate risk with world-class support for your critical Python systems.

### ActivePython Enterprise OEM

**Shorten time to market with hassle-free Enterprise OEM licensing.**

ActivePython Enterprise OEM is a comprehensive software, support and maintenance package for organizations of all sizes that redistribute Python with their products and solutions to customers. ActivePython Enterprise OEM provides full redistribution rights, plus optional support and co-marketing packages. Gain competitive advantage and bring your applications to market faster with proven ActiveState technology.
