

ActiveTcl

The Industry-Standard Tcl Distribution

ActiveTcl® is ActiveState's free, ready-to-install distribution of standard Tcl, for Windows, Linux, Mac OS X, Solaris, AIX, and HP-UX.

ActiveTcl contains core Tcl, Popular extensions, the Tcl extension manager(teacup), and comprehensive documentation. ActiveTcl has become the worldwide standard cross-platform distributions.

FEATURES

What's Included

Tcl

- ▶ Access to hundreds of ready-to-use packages.

Teacup

- ▶ Binary of core Tcl distribution.

Expect for Windows

- ▶ Cross-platform system administration and test automation Installers

Extensions

- ▶ Popular extensions, pre-compiled.

Documentation

- ▶ Complete, HTML & CHM format.

Highlights in ActiveTcl 8.5

Speed

- ▶ 8.5 now runs 10% faster than 8.4 with bytecode improvements, object caching and reduced memory usage.

Bignums

- ▶ Tcl now supports arbitrary-precision integers, which improves math operations on large integers.

clock Command

- ▶ More robust implementation of command for specifying time, with significant i10n and i18n improvements.

ActiveTcl Enterprise

Focus on core competencies and enjoy piece of mind with on-demand support.

ActiveTcl Enterprise is a comprehensive software, support and maintenance package for organizations of all sizes that depend on Tcl. Safeguard your company's applications with guaranteed, quality-assured ActiveTcl binaries and mitigate risk with world-class support for your critical Tcl systems.

ActiveTcl Enterprise OEM

Shorten time to market with hassle-free Enterprise OEM licensing.

ActiveTcl Enterprise OEM is a comprehensive software, support and maintenance package for organizations of all sizes that redistribute Tcl with their products and solutions to customers. ActiveTcl Enterprise OEM provides full redistribution rights, plus optional support and co-marketing packages. Gain competitive advantage and bring your applications to market faster with proven ActiveState technology.

Current Releases

- ▶ ActiveTcl 8.6
- ▶ ActiveTcl 8.6
- ▶ ActiveTcl 8.4

“Tcl has proven to be the best scripting language for our automated testing environment for over a decade now. The number of Tcl users within our organization has grown from a few engineers to over thousands. ActiveState has successfully managed to fill in the spot of providing Tcl support where Scriptics/Ajuba left off. With a response time of less than an hour, no matter what time of the day or night the support is requested, I wonder: do the Tcl developers at ActiveState ever sleep?”

—Hemango Lavana,
Software Engineer, Cisco
