

OEM EDITIONS

ACTIVEPERL, ACTIVEPYTHON, ACTIVETCL

ActiveState

IF YOU REDISTRIBUTE PERL, PYTHON OR TCL WITH YOUR PRODUCTS, IGNORING OPEN SOURCE LICENSING TERMS CAN BE DANGEROUS. IT CAN COST YOU IN INTELLECTUAL PROPERTY INFRINGEMENT LAWSUITS, BACKBREAKING LAWYERS' BILLS AND A DAMAGED REPUTATION.

Get peace of mind and eliminate legal risks with ActiveState OEM Edition with turn-key, fail-safe licensing, commercial support and indemnification solutions for businesses that bundle ActivePerl, ActivePython and ActiveTcl with their products.

By relying on ActiveState to license applications properly, our OEM customers, including Siemens, Cisco, VMWare and CA, rest assured knowing they're covered with indemnification against potential copyright infringement lawsuits. Plus, they use dynamic languages with confidence knowing they've got access to on-demand, guaranteed support.

ELIMINATE LEGAL RISK

If you're worried about distributing products with improperly licensed open source dynamic languages and language modules, you'll get peace of mind and assurance by trusting ActiveState OEM solutions to eliminate potential legal headaches and costs that can occur when you distribute open source software in commercial products. Plus, turn-key licensing means less homework and administration for your team so they don't have to spend time deciphering complex open source licensing.

*Walter Verhoeven
Creative Associates*

"It's very important to us that we don't have open source licensing problems, which is why we use ActivePerl OEM. We estimate that it saves us about 50K Euro per year on support and possible missed deals."

TAKE QUALITY PRODUCTS TO MARKET FASTER

ActiveState dynamic language distributions are fully tested and quality assured by core Perl, Python and Tcl experts. They address module-level dependencies and eliminate potential licensing problems. Regular updates and fixes guarantee that you're always working with the latest, most secure release. ActiveState's experts are always testing new modules for security, stability and quality for our enterprise OEM customers.

Your staff can spend their time developing and delivering your quality products, while relying on dynamic language experts for building, testing and maintaining dynamic language distributions.

SATISFY CUSTOMERS

By licensing dynamic languages properly, you ease customer and partner worries. If they know open source licensing is covered, they don't need to purchase additional indemnification or support and, importantly, they won't second-guess your organization's integrity or delay potential business with your company.

GET ON-DEMAND COMMERCIAL SUPPORT

Resolve your team's development issues privately with ActiveState open source experts, not on public forums. From troubleshooting to emergency in-production coverage, with ActiveState support for enterprise OEM customers, you get unlimited incidents, priority access to core dynamic languages experts, guaranteed fast response times and fixes delivered directly to you. When you are under pressure to speed-up development cycles to get to market faster, you get priority access to ActiveState's experts to help your development team keep projects on track.

ActiveState OEM Editions are your best choice for licensing the highest-quality ActivePerl, ActivePython and ActiveTcl builds for inclusion in your products.

ABOUT ACTIVESTATE

ActiveState believes that enterprises gain a competitive advantage when they are able to quickly create, deploy and efficiently manage software solutions that immediately create business value, but they face many challenges that prevent them from doing so. The company is uniquely positioned to help address these challenges through our experience with enterprises, people and technology. ActiveState is proven for the enterprise: more than two million developers and 97 percent of Fortune 1000 companies use ActiveState's end-to-end solutions to develop, distribute, and manage their software applications written in Java, Perl, Python, Node.js, PHP, Tcl and other dynamic languages. Global customers like Cisco, CA, HP, Bank of America, Siemens and Lockheed Martin trust ActiveState to save time, save money, minimize risk, ensure compliance and reduce time to market.
